

Cogstate Support for Remote Clinical Outcome Assessments

Cogstate

Cogstate are expertly positioned to support remote administration of both conventional clinical assessments using any eCOA and any HIPAA compliant videocall solution, as well as Cogstate proprietary computerized cognition assessments for both ongoing and future clinical trials.

In-study adaptations

To minimize COVID-19 disruptions, we have supported many studies in changing the mode of administration from in-clinic assessment to conduct via telephone and/or videocall. These services include:

Feasibility and validity reviews, including license-holder consults

Site, rater, study-participant, and study-partner/caregiver guidance materials development

Adaptation of all clinical outcome assessment (COA) types

Additional general and scale-specific training and certification, including practice remote administration

Adaptations to data capture and data quality monitoring approaches

Prospective study planning

Consulting and protocol development for hybrid in-clinic/remote mode of administration contingency planning

Scale management, rater training and certification, and central monitoring for telephone and videocall assessments

Global network of local expert advisors (LEADs) to support centralized data quality review or centralized ratings in 30+ countries

At-home supervised and unsupervised assessment options using Cogstate proprietary computerized cognitive test batteries

Cogstate Ltd (ASX:CGS) is the neuroscience technology company optimising brain health assessments to advance the development of new medicines and to enable earlier clinical insights in healthcare. Cogstate technologies provide rapid, reliable and highly sensitive computerised cognitive tests across a growing list of domains and support electronic clinical outcome assessment (eCOA) solutions to replace costly and error-prone paper assessments with real-time data capture. The company's clinical trials solutions include quality assurance services for study endpoints that combine innovative operational approaches, advanced analytics and scientific consulting. For 20 years, Cogstate has proudly supporting the leading-edge research needs of biopharmaceutical companies and academic institutions and the clinical care needs of physicians and patients around the world. In the Healthcare market, Cogstate has recently entered into an exclusive licensing agreement with pharmaceutical company, Eisai, under which Eisai will market Cogstate technologies as digital cognitive assessment tools in Japanese markets.
